

Participate in a Research Study!

Assessing the Need for *Pediatric Walking Assessment* in Saskatchewan: A Mixed Methods Needs Assessment

We are interested in your thoughts on pediatric walking assessment in Saskatchewan! This study will explore how we can support strategic planning for the development of pediatric walking assessment services across the province.

We are recruiting:

Allied health professionals and/or physicians in Saskatchewan who assess and treat pediatric patients with disabilities, injuries, or diagnoses that directly impact their walking ability.

Compensation:

You can be entered into a gift card draw!

What's involved:

If eligible, you will complete a 15 to 20 minute long online survey. Your responses will be anonymous.

Participation is voluntary and intended to be completed outside of paid work hours.

This study has been approved by the University of Saskatchewan Behavioural Research Ethics Board (#6088)
